

# Bouquet Banque Nursery presents The 2018 Hardy Cyclamen openhouse

January 13th & 14th - Saturday and Sunday  
10am - 4pm

The hardy coum Cylamen have come through the cold of December quite well Some are beginning to bloom now so we should see houses of bright color by the end of the January.

Epimedium dividing will begin in January. Put your name on the list for those special varieties that are always in short supply.

And it is nearly time for divisions of all the Chinese woodlands - podophylums, disporums, polygonatums and more!

In the basketry world, the new wood shop is working well. How nice to have all the tools available without moving half a shop!

Bill's 2017 skeining class went well and another is scheduled for the week of Aug 6th.

The Germany tour was extremely successful. Participants made wonderful willow baskets with both German and Swiss instructors. Side trips to Bamberg and Nurnburg as well as other master basketmakers were highlights.

Sign up for a class with Judy or Bill this year!
